

COURSE GUIDE

2024

CERTIFICATE III PROGRAMS

HLT33115 - Cert III in Health Services Assistance
ACM30122 - Cert III in Animal Care Services
CHC32015 - Cert III in Community Services
MSL30122 - Cert III in Laboratory Skills
SIS30321 - Cert III in Fitness

CERTIFICATE IV PROGRAMS

52895WA - Cert IV in Preparation for Health & Nursing Studies
22608VIC - Cert IV in Science (Biology)

FULL TIME STUDENTS ONLY

HLT36015 - Cert III in Population Health

About us

Our Specialty

Health Science Hub does not try to offer multiple courses in many different industries. We concentrate on Health & Science. And to narrow it down even more - we focus on youth! This means that our courses are specifically developed for this age group and taught in a way that is both engaging and future focused for our students.

Our Location

Health Science Hub has four classroom delivery sites across Western Australia, as well as student completing online courses across Australia.

We have Hubs in Perth CBD and Bunbury (in the South West) and also deliver out of Murdoch University campus (Perth and Mandurah).

Our Team

We have been able to create the most amazing team of trainers to help you on your learning journey. Our training team comes from various backgrounds including science teaching, registered nurses, exercise science professionals, and forensic scientists. Whichever course you choose with us - you can be guaranteed that your trainer has the skills and knowledge that will help you succeed.

Our Technology

Each of our courses use technology. Each student will be required to have access to their own device. This is so that you can access our content, videos, podcasts, and more. We also use apps in the classroom that will help you get a better understanding of how science works.

Pathways

We aim to provide as many pathways for our students as possible. This ensures that students are geared up and ready for their career, regardless if they're leaning toward university or employment.

Each of our courses can be completed in a single year. We operate from Terms 1-3 so that certificates can be finalised and completed educational reporting deadlines.

A Certificate IV satisfies many university entrance requirements and can provide entry into a lot of non-competitive courses. If students are aiming to get into a competitive course (eg: Nursing) they should have a plan B with the aim of switching after a semester.

Health & Nursing Pathway

“You treat a disease: you win, you lose. You treat a person, I guarantee you win—no matter the outcome.”

—Robin Williams in Patch Adams

Cert III Program

Cert III in Health Services Assistance will help you understand the health industry and how to care for others. It will give you the opportunity to work in aged care and individual support roles while you're tackling larger educational goals too!

Cert IV Program

Cert IV in Preparation for Health & Nursing Studies will give you the foundational knowledge to reduce the stress of first year university. We go into detail about the human body, infection control, medication, and finish with how to research and reference at university level. A great opportunity to try your skills at higher level education in the safe zone of HSH.

University

Here are some suggested University courses that you could aim for:

- Bachelor of Health Science
- Bachelor of Medical Science
- Bachelor of Science
- Bachelor of Sports Science
- Bachelor of Nursing*
- Bachelor of Psychology
- Bachelor of Social Work
- Bachelor of Paramedicine

*Nursing is competitive – although you may meet entry requirements, there is no guarantee of acceptance. This is also the case for ATAR entry.

Assistant in Nursing

HLT33115 - Certificate III in Health Services Assistance

Wanting to care for others when they are sick or frail is a key skill that is valuable to any community. This Cert III qualification will provide you with the foundational skills to work in the health environment in helping others return to their healthy state.

Learning key skills such as first aid, taking patient's vital signs, and recognising and responding to mental health concerns, you'll feel confident to begin your journey into a nursing career.

This qualification will take you through the following areas:

- Keeping yourself organised
- Medical Terminology & Anatomy & Physiology
- Infection control and workplace safety
- First aid & CPR
- Recognising and responding to mental health
- Measurement of a patients vital signs and health details

2024

- \$2200 Classroom
- \$2000 Online

- Classroom - Terms 1 - 3.
- Online - 18 mth access

Preferable Entry Requirements:

Year 10 or 11 - C Grades for English & Maths + OLNA

- CHCCOM005 - Communicate and work in health or community services
- CHCDIV001- Work with diverse people
- HLTAAP001- Recognise healthy body systems
- HLTINF001 - Comply with infection prevention and control policies and procedures
- HLTWHS001 - Participate in workplace health and safety
- BSBMED301 - Interpret and apply medical terminology appropriately
- BSBWOR301 - Organise personal work priorities and development
- CHCCCS002 - Assist with movement
- CHCCCS020 - Respond effectively to behaviours of concern
- HLTAID009 - Provide cardiopulmonary resuscitation
- HLTAID011 - Provide First Aid
- CHCMHS001 - Work with people with mental health issues
- CHCCCS012 - Prepare and maintain beds
- HLTWHS006 - Manage personal stressors in the work environment
- HLTHPS001 - Take clinical measurements

Health & Nursing

52895WA - Certificate IV in Preparation for Health & Nursing Studies

A perfect entry pathway into University to study all areas of health, nursing, science, as well as other Certificates and Diplomas.

Our Cert IV program provides you with the foundational knowledge in human biology, academic communication, and basic medications to help you glide into university with the basics already covered.

Throughout this qualification, you will be continuously applying your knowledge to patient case studies to understand the complexity of how the body works (physiology) and does not work (pathophysiology).

2024

- \$2500 Classroom
- \$2200 Online

- Classroom - Terms 1 - 3.
- Online - 18 mth access

Mandatory Entry Requirements:

C Grades for Maths, Science & English in Year 10 or 11.

- PREASU403 - Apply academic skills
- PREMHA404 - Use mathematics in a nursing and health context
- BSBMED301 - Interpret and apply medical terminology appropriately
- BSBTEC301 - Design and produce business documents
- PREAPU401 - Provide information on human anatomy and physiology
- PREPHC405 - Use fundamentals of physics and chemistry in a health context
- PREMHS402 - Provide information on the fundamental principles of microbiology used in health settings

Animal & Marine Pathway

The greatness of a nation and its moral progress can be judged by the way its animals are treated.

—Mahatma Gandhi

Cert III Program

Cert III in Animal Care Services will teach you about mammals, birds, fish, and reptiles. Our Perth and Bunbury Hubs even have their own Fish tanks that you will get to help maintain. This qualification teaches you about the animal industry, how to identify welfare concerns, and even delivery some animal first aid.

Cert IV Program

Cert IV in Science (Biology) will give you the foundational knowledge to reduce the stress of first year university. This is a Science qualification, and therefore you will explore far more than just animal and marine life. We look at everything from mathematical science, laboratory science, Biological science and more. You'll then spend a whole term learning about animal and marine biology and finish with how to research and reference at university level. A great opportunity to try your skills at higher level education in the safe zone of HSH.

University

Here are some suggested University courses that you could aim for:

- Bachelor of Science (BSc) in Conservation and Wildlife Biology
- Bachelor of Science (BSc) in Environmental Management and Sustainability
- Bachelor of Science (BSc) in Environmental Science
- Bachelor of Science (BSc) in Marine Biology
- Bachelor of Science (BSc) in Marine Science
- Bachelor of Science (BSc) in Mathematics and Statistics
- Bachelor of Science
- Bachelor of Science (Environmental Management)
- Bachelor of Science (Marine and Freshwater Biology)
- Bachelor of Sustainability

Animal Care

ACM30122 - Certificate III in Animal Care Services

Dive into the world of the mammals, reptiles, birds, and fish! Our animal studies qualification will give you great foundational knowledge into the world of animal care, hygiene, feeding, and maintenance.

This qualification will introduce you to various species as well as take you on some adventures to wildlife parks, shelters, farms, and more. You will need to source and attend your own excursions so that you can get some hands on experience with different animals.

This qualification will take you through the following areas:

- Keeping yourself organised
- Introduction to Fauna
- Mammals, Birds, Reptiles, & Fish
- Health and wellbeing of yourself and the animals
- Recognising and responding to animal behaviours

HSH Classroom students visit animal farms, reptile facilities, Wildlife parks etc throughout the year, and also have multiple animal visits into the classroom. Online students are required to source their own animal encounters to complete assessment requirements.

2024

- \$2200 Classroom
+ \$100 excursions and incursions
= \$2300
- \$2000 Online

- Classroom - Terms 1 - 3.
- Online - 18 mth access

Preferable Entry Requirements:

Year 10 or 11 - C Grades for English & Maths + OLNA

- ACMBEH301 Identify behaviours and interact safely with animals
- ACMGEN303 Assess the welfare status of an animal
- ACMGEN304 Promote positive wellbeing in self and others in animal care workplaces
- ACMGEN309 Provide basic animal first aid
- ACMGEN315 Communicate effectively with clients and team members
- ACMINF301 Comply with infection control policies and procedures in animal care work
- ACMWHS301 Contribute to workplace health and safety processes
- ACMBEH302 Provide enrichment for animals
- ACSMS401 - Implement and monitor environmentally sustainable work practices
- ACMGEN311 Maintain and monitor animal health and wellbeing
- ACMGEN312 Provide nutritional requirements for animals
- ACSMSPE315 Provide general care of common native mammals
- ACSMSPE314 Provide general care of birds
- ACSMSPE318 Provide general care of fish
- ACSMSPE320 Provide general care of mammals
- ACSMSPE321 Provide general care of non-venomous reptiles
- AHCFAU202 - Recognise fauna

Animal Marine

22608VIC - Certificate IV in Science (Biology)

Are you interested in animals? Our animal and marine-focused qualification will provide pathway opportunities into university as well as equip you for understanding the complex world of animal science.

Moving through the world of science, you'll study the following areas:

- Biological Science
- Laboratory Science
- Environmental Science
- Mathematical Science
- Research and Referencing
- Animal and Marine Science

2024

- \$2500 Classroom
- \$2200 Online

- Classroom - Terms 1 - 3.
- Online - 18 mth access

Mandatory Entry Requirements:

C Grades for Maths, Science & English in Year 10 or 11.

- MSL943004 Participate in laboratory or field workplace safety
- VU23268 Apply essential further study skills for science
- VU23269 Research scientific fields of study
- VU23270 Use a range of techniques to solve mathematical problems
- VU23271 Apply mathematical techniques to scientific contexts
- ICTICT221 Identify and use specific industry standard technologies
- MSL973016 Perform aseptic techniques
- VU23281 Investigate cell biology
- VU23282 Investigate anatomy and physiology
- VU23283 Investigate introductory genetics
- VU23284 Investigate ecology
- VU22403 Undertake a simple investigation of an environmental issue

Nationally Recognised Training

Animal & Marine Science Stream:

- SFIAQU403 Manage water quality and environmental monitoring in enclosed systems
- AHCLPW406 Supervise the monitoring of biodiversity
- ACMATE511 Carry out post-mortem examination of a research animal

Psychology Pathway

“ There is a crack in everything, that’s how the light gets in.

—Leonard Cohen

Cert III Program

Cert III in Community Services allows students to investigate and discuss the communities in which they live and work. Students will look further into mental health, drugs, and alcohol and identify how they can recognise and respond to the ups and downs that life throws at us all.

Cert IV Program

Cert IV in Science (Biology) will give you the foundational knowledge to reduce the stress of first year university. This is a Science qualification, and therefore you will explore far more than just psychology. We look at everything from mathematical science, laboratory science, Biological science and more. You'll then spend a whole term learning about social psychology and investigations as well as mental health and mental disorders. You'll finish with how to research and reference at university level. A great opportunity to try your skills at higher level education in the safe zone of HSH.

University

Here are some suggested University courses that you could aim for:

- Bachelor of Science
- Bachelor of Psychology
- Bachelor of Arts (Psychology)
- Bachelor of Psychology & Counselling
- Bachelor of Youth Work
- Bachelor of Counselling
- Bachelor of Social Work
- Bachelor of Health Science

Community Services

CHC32015 - Certificate III in Community Services

The community we live in significantly impacts our lives on a daily basis. Understanding what a community is and how we can support vulnerable people/groups within the community can help make the world a better place.

Our community services qualification focuses on identifying and helping those in need in different community settings. Throughout this qualification, we focus on identifying mental health barriers and promoting healthy living practices in others.

This qualification will take you through the following areas:

- Keeping yourself organised
- Managing Stress
- Recognising and responding to mental health, alcohol and other drugs
- Working with different people, cultures and backgrounds
- Ensuring the safety of yourself and others
- Understanding and contributing to community development

2024

- \$2200 Classroom
- \$2000 Online

- Classroom - Terms 1 - 3.
- Online - 18 mth access

Preferable Entry Requirements:
Year 10 or 11 - C Grades for English + OLNA

- CHCCCS016 - Respond to client needs
- CHCCOM005 - Communicate and work in health or community services
- CHCDIV001 - Work with diverse people
- HLTWHS002 - Follow safe work practices for direct client care
- HLTWHS006 - Manage personal stressors in the work environment
- CHCMHS001 - Work with people with mental health issues
- CHCCCS009 - Facilitate responsible behaviour
- CHCCDE003 - Work within a community development framework
- CHCAOD001 - Work in an alcohol and other drugs context
- BSBWOR301 - Organise personal work priorities and development
- CHCGRP001 - Support group activities
- CHCCCS020 - Respond effectively to behaviours of concern

NATIONALLY ACCREDITED
Training

Psychology

22608VIC - Certificate IV in Science (Biology)

Are you interested in how the mind works? Our Psychology and Mental Health focused qualification will provide pathway opportunities into university as well as equip you for understanding the complex world of the mind.

Moving through the world of science, you'll study the following areas:

- Biological Science
- Laboratory Science
- Environmental Science
- Mathematical Science
- Research and Referencing
- Psychological Science and Mental Health

2024

- \$2500 Classroom
- \$2200 Online

- Classroom - Terms 1 - 3.
- Online - 18 mth access

Mandatory Entry Requirements:

C Grades for Maths, Science & English in Year 10 or 11.

- MSL943004 Participate in laboratory or field workplace safety
- VU23268 Apply essential further study skills for science
- VU23269 Research scientific fields of study
- VU23270 Use a range of techniques to solve mathematical problems
- VU23271 Apply mathematical techniques to scientific contexts
- ICTICT221 Identify and use specific industry standard technologies
- MSL973016 Perform aseptic techniques
- VU23281 Investigate cell biology

Forensic Pathway

“ The only people who see the whole picture are the ones who step outside the frame.

- Salman Rushdie

Cert III Program

Cert III in Laboratory Skills allows students to gain the skills and knowledge to look at the world from a scientific viewpoint. Working with Harry Perkins Institute of Medical Research, our Cert III students spend three full days at their Labs to gain some real world experiences and learn some amazing new skills.

Cert IV Program

Cert IV in Science (Biology) will give you the foundational knowledge to reduce the stress of first year university. This is a Science qualification, and therefore you will explore far more than just forensics. We look at everything from mathematical science, laboratory science, Biological science and more. You'll then spend a whole term learning about how to identify evidence, package, and investigate the smallest of key information. You'll finish with how to research and reference at university level. A great opportunity to try your skills at higher level education in the safe zone of HSH.

University

Here are some suggested University courses that you could aim for:

- Bachelor of Criminology
- Bachelor of Science
- Bachelor of Laboratory Medicine
- Bachelor of Science
- Bachelor of Criminology & Justice
- Bachelor of Biomedical Science
- Bachelor of Health Science

Laboratory Skills

MSL30122 - Certificate III in Laboratory Skills

Are you interested in science and analysis? Our laboratory skills qualification will allow you to build your skills in the lab to investigate, decipher and analyse samples and data.

Working with the Harry Perkins Institute of Medical Research, this program will help you build some amazing skills and knowledge in a scientific environment.

This qualification will take you through the following areas:

- Keeping yourself organised
- Plan and conduct field work
- Work with data analysis and presentation
- Perform basic lab tests
- Using microscopes
- Prevent cross-contamination between samples
- Capture scientific images

Students spend three FULL days at the Harry Perkins Institute of Medical Research to experience real laboratory facilities and processes.

2024

- \$2200 Classroom
+ \$100 for Harry Perkins Excursions
= \$2300

- Students are required to purchase a HSH Lab coat through our Uniform shop

- Classroom - Terms 1 - 3.

Preferable Entry Requirements:

Year 10 or 11 - C Grades for English & Maths + OLNA

- BSBCM211 - Apply communication skills
- MSL913004 - Plan and conduct laboratory/field work
- MSL922002 - Record and present data
- MSL933009 - Contribute to the achievement of quality objectives
- MSL943004 - Participate in laboratory or field workplace safety
- MSL933005 - Maintain the laboratory/field workplace fit for purpose
- MSL973027 - Perform techniques that prevent cross-contamination
- MSL973025 - Perform basic tests
- MSL973026 - Prepare working solutions
- MSL973028 - Perform microscopic examination
- MSL924005 - Process and interpret data
- MSL974023 - Capture and manage scientific images
- MSL973015 - Prepare culture media

Exercise Science Pathway

“ Fitness is not about being better than someone else - it's about being better than you used to be. - Brett Hoebel

Cert III Program

Cert III in Fitness starts off by looking into the human body, how it functions, and how you (as a fitness professional) can help it function even better. You'll learn all about group fitness, and gym fitness, and how to motivate others to reach their health goals.

Cert IV Program

Cert IV in Science (Biology) will give you the foundational knowledge to reduce the stress of first year university. This is a Science qualification, and therefore you will explore far more than just exercise. We look at everything from mathematical science, laboratory science, Biological science and more. You'll then spend a whole term learning about how the body changes over the lifespan, how drugs can impact the body, and the psychology that goes along with being a successful sports person. You'll finish with how to research and reference at university level. A great opportunity to try your skills at higher level education in the safe zone of HSH.

University

Here are some suggested University courses that you could aim for:

- Bachelor of Science (Exercise & Sports Science)
- Bachelor of Sport & Exercise Science
- Bachelor of Science (Exercise Science & Rehabilitation)
- Bachelor of Food Science & Nutrition
- Bachelor of Health Science (Human Movement)
- Bachelor of Sports Media
- Bachelor of Public Health
- Bachelor of Medical Science
- Bachelor of Nutrition Science

Fitness

SIS30321 - Certificate III in Fitness

Interested in how the body moves and can be used to maintain health and vitality? Our fitness qualification provides you with the foundation skills of fitness and how to help others build their strength. Concentrating on moving clients through their exercise journey, you will gain the skills and knowledge of the human body, its abilities and limitations.

This qualification will take you through the following areas:

- Keeping yourself organised
- Anatomy & Physiology
- Healthy Eating
- Pre-screening and fitness assessments
- Gym programs and group fitness
- First aid & CPR
- Setting up a PT business and marketing yourself
- Safety and Manual Handling

2024

- \$2200 Classroom
- \$2000 Online

- Classroom - Terms 1 - 3.
- Online - 18 mth access

Preferable Entry Requirements:
Year 10 or 11 - C Grades for English & Maths + OLNA

- BSBOPS304 Deliver and monitor a service to customers
- BSBPEF301 Organise personal work priorities
- SISFFIT032 Complete pre-exercise screening and service orientation
- SISFFIT033 Complete client fitness assessments

NATIONALLY RECOGNISED
TRAINING

- SISFFIT035 Plan group exercise sessions
- SISFFIT036 Instruct group exercise sessions
- SISFFIT040 Develop and instruct gym-based exercise programs for individual clients
- SISFFIT047 Use anatomy and physiology knowledge to support safe and effective exercise
- SISFFIT052 Provide healthy eating information
- BSBTEC301 Design and produce business documents
- SIRXSL5001 Sell to the retail customer
- HLTWHS005 Conduct manual tasks safely
- HLTAID011 Provide First Aid
- HLTAID009 Provide CPR
- HLTWHS001 Participate in workplace health and safety
